

For good weather or bad—Britain's lowest priced 12 h.p.

Drop-head Coupé

Winner in
the Coach-
work Com-
petition,
Class £250
and under,
R. A. C.
Rally,
Hastings,
1937.

This is a very special car. Chassis, engine and general equipment are those of that most popular car, the Flying Standard "Twelve." The novel, stylish Drop-head Coupé fitment gives the advantages of a closed or open car to choice. The result is a four-seater car which reaches 70 m.p.h. in smooth comfort — is entirely exceptional both in equipment and appearance — and enables you to enjoy, without risk, what gifts the climate sends! Surely an attractive proposition.

Body. All steel foundation, twill folding head, available in 2 colours. Wind-up windows, adjustable ventilating glass flaps. Large luggage locker.

Chassis High power-weight ratio. 70 m.p.h. 28 m.p.g. Adjustable steering column, front seats and pedals. 4-speed synchromesh gearbox. etc., etc.

Flying Standard 12 h.p. Drop-head Coupé
