Usage (please delete those not applicable:) Regular / Rally Season / Laid Up / Major Restoration

MoT: Yes/No Expiry date of MoT:.....Value (best estimate).....Currency:.....

Mileage:.....

Vehicle Condition Form

Please provide below your assessment of the condition of the car based on the "Practical Classics" magazine definitions

Condition 1: Cars are typically in first class condition in every respect. They are not potential concours winners, but they are immaculately maintained and free of significant faults

Condition 2 : Cars are generally capable of regular use. They have earned a justifiable MoT, but need work and or original parts to make them Condition 1

Condition 3: Cars need a complete rebuild though they might well be driveable. This category does not include the "guess what make" pile of bits

Condition:..... (1,2 or 3 as above)

If you know any of the history of your car, please detail it below. A photograph of your car in its current condition, for the Club Archives is always welcomed. If you have any other Standards, please record their details on a separate piece of paper.
